

# RX PLASTICS QUALITY POLICY

RX Plastics Ltd is one of New Zealand's largest manufacturers and distributors, specialising in plastic products for fluid transport and storage. RX Plastics is an innovative and progressive company with over 40 years experience in providing industry solutions using various manufacturing methods.

RX Plastics is committed to:

- Producing and distributing products that comply with internal and external standards, and regulatory requirements
- Providing customers with high quality products and services which meet their requirements and are fit for purpose
- Supporting compliance of the certified products with the appropriate Standards
- Operating the business to the systems required by ISO 9001:2015
- Promoting a culture of continuous improvement in quality through a systematic evaluation process, internal controls and business objectives
- Promoting the Quality Management Systems and ensuring implementation is achieved by internal auditing, management review, corrective and preventive action
- Ensuring the use of risk-based decision making in all areas of the business

**Executive and Senior Management will sustain this commitment by maintaining a Quality Management System by integrating quality requirements into all areas of the work environment by reviewing product risk, technical developments, scientific advancements, training, customer needs and community expectations through training and communication of our workforce.**

Chris Hancox  
General Manager
